

# BLUE OAK ENERGY RETROFIT

Prop 39

## Prop 39

- Prop39 provides funding for energy upgrades to schools.
- Dollars amounts are allocated based on student population.
- Blue Oak has \$260,000 over the course of 5 years.
- For every \$1 spent, the return on investment must be \$1.05. (that's where we come in)

# GREEN CONSTRUCTION SERVICE

- GCS has been in business since 2008.
- Our Vision is To Provide Comfort and Beauty Using Good Clean Energy.
- Our mission is to achieve 35% overall energy savings through deep energy retrofits and provide the balance of energy needs with solar. We assess the building, tighten the shell, insulate, design and install efficient mechanical systems, daylight and provide the balance of energy needs with solar electric.
- David Green, Owner and CEO is LEED certified, BPI certified analyst, Green Point Rater and HERS certified.

# Lighting

- Daylighting
- Occupancy Sensors

# Water heating

- Heatpump water heaters to replace the current water heaters

# Average Annual Energy Cost of a School Building
